Twin Filter Rental Conditions

- Filter equipment has to be clean and empty (i.e. Flushed with fresh water) before return to Twin Filter BV.
- If equipment is returned unclean, we will charge cleaning at cost.
- Any used consumables returned will be disposed off and charged at cost.
- Upon return the equipment will be inspected. Any damage or parts replacement other than normal wear and tear will be repaired and charged at cost to the user.
- Normal wear and tear and maintenance cost during the contract period is also for cost of the client.
- The client is responsible for execution of required maintenance to the equipment as described in the equipment operations manuals.
- Rental rate starts when the unit leaves our warehouse and stops when the unit returns in our warehouse in Zaandam. For reservation of equipment, a standby rate (30%) is applicable. The standby rate ends when the unit is called off and leaves our warehouse or the reservation is otherwise cancelled.
- Return of equipment is only possible during normal working hours i.e. excluding weekends and holidays.
- Twin Filter can not be made liable for the water quality at the filter outlet nor for the maximum achieved flow rates of the filters. Parameters and process conditions beyond the control of Twin Filter can (negatively) influence the filter performance.
- Spares used for normal usage of the unit are not included in the rental rate.
