

Spunflow QA

Absolute Spunbonded Depth
Filter Cartridges

The SPUNFLOW QA range of absolute rated, graded density filter elements are manufactured from thermally bonded microfibres layered onto a centre core. The construction consists of numerous, distinctive filter zones with coarser outer layers acting as prefilters for the tighter, absolute rated central zone, this removal profile produces an element possessing high voids volume, which benefit the user through high flow rates, low pressure loss, high dirt holding capacity and long life. The thermally bonded media also eliminates fibre migration and resists unloading during service. Available in two grades, polypropylene and polyester / nylon, the range offers extremely wide chemical compatibility.

Benefits

- Absolute Filtration ratings 0.5 to 90 μm .
- Available in lengths up to 40" (1016 mm).
- Easy handling and operation.
- Fit into existing cartridge filter units.
- 99.98% absolute efficiency.

Applications

- Fine chemicals
- High purity water
- Inks
- Optical coatings

Absolute Spunbonded Depth Filter Cartridges

SPECIFICATIONS

Materials of Construction

Filter Media

- Polypropylene
- Polyester / Nylon

End Caps

- Polypropylene
- Nylon

Dimensions

Cartridge Outside Diameter

- 2.52" (64 mm)

Cartridge Inside Diameter

- 1.14" (29 mm)

Maximum Recommended Operating Conditions

Temperature

- Polyester / Nylon 275°F (135°C)
- Polypropylene 149°F (65°C)

Differential Pressure

- 29 psi (2 bar) @ 68°F (20°C)

Maximum Operating Conditions

Differential Pressure

- 58 psi (4 bar) @ 68°F (20°C)

Performance Characteristics

10" Size (250 mm) Cartridge

10" Size (250 mm) Cartridge
